### EDUCATION

#### Master of Computer Science

Scott Christian College  
2021 - 2023 | CGPA: 7.4

#### Bachelor of Computer Science

Scott Christian College  
2018 - 2021 | CGPA: 7.0

### TECHNICAL SKILLS

#### Front-End Technologies

- HTML5, CSS3, JavaScript (ES6+)
- React.js
- Bootstrap
- Responsive & Mobile-First Design

#### Back-End Technologies

- PHP
- Laravel
- Node.js
- Slim Framework
- Python (Basics)
- MVC Framework

#### Databases

- PostgreSQL
- MySQL
- MS SQL (basic)

### SUMMARY

Results-driven Full-Stack Web Developer with over 2.5+ years of professional experience in designing, developing, and maintaining scalable web applications. Strong expertise in PHP, React.js, Laravel, RESTful APIs, and PostgreSQL/MySQL. Proven ability to build secure, high-performance applications for government and enterprise environments. Adept at working across the full SDLC, collaborating with cross-functional teams, and delivering user-centric solutions.

### WORK EXPERIENCE

#### PHP Developer

Dec 2024 to Present

National Informatics Centre

- Developed and maintained full-stack government web applications with secure, scalable architecture.
- Designed and implemented RESTful APIs to enable seamless data exchange between React.js front-end and PHP back-end.
- Managed and optimized PostgreSQL databases, including complex queries, indexing, and data integrity.
- Ensured application security through proper validation, authentication, and role-based access control.
- Troubleshoot and resolved application issues by analyzing Model, View, and Controller components to ensure smooth system operation

#### Web Developer

Aug 2023 to Dec 2024

Redevon IT Services Pvt Ltd

- Built responsive and dynamic web applications using React.js, HTML5, CSS3, Bootstrap, and JavaScript.
- Developed and customized WordPress themes and plugins to meet diverse client business requirements.
- Integrated APIs and third-party services to enhance application functionality.
- Improved website performance by optimizing assets, reducing load times, and ensuring cross-browser compatibility.
- Worked closely with designers and stakeholders to deliver visually appealing and user-friendly interfaces.

#### Full-Stack Java Developer Intern

May 2023 to Aug 2023

Inbox Info Solutions

- Designed responsive web pages using HTML, CSS, Bootstrap, and JavaScript.
- Assisted in Java-based back-end development and database interactions using MS SQL.
- Implemented device-optimized UI layouts to improve usability and accessibility.
- Gained hands-on experience in full-stack development workflows and agile practices.

---

## Tools & Platforms

- Git & Version Control
- RESTful API Development
- WordPress (Theme & Plugin Development)
- API Integration
- Postman
- Visual Studio Code
- Sublime Text

---

## SOFT SKILLS

- Strong problem-solving and analytical skills
- Effective team collaboration and communication
- Self-motivated and quick learner
- Attention to detail and debugging mindset
- Time management and adaptability

---

## LANGUAGE

- Tamil (Native)
- English (Fluent)
- Malayalam (Basic)

---

## PROJECTS

---

### 1) K-CIS (Centralized Inspection System)

#### Technologies: Core PHP, PostgreSQL, RESTful APIs

- Developed a centralized web-based inspection management system for government departments.
- Enabled efficient tracking and management of establishment inspections.
- Designed secure workflows for data entry, reporting, and administrative oversight.
- Improved operational transparency and reduced manual processing efforts.

### 2) Oplifi

#### Technologies: Laravel, MySQL, React.js, JavaScript, RESTful APIs

- Built a full-stack business web application with secure authentication and authorization.
- Developed dynamic dashboards for real-time business insights.
- Designed and consumed RESTful APIs for smooth front-end and back-end interaction.
- Implemented scalable architecture to support future enhancements.

### 3) Netcore

#### Technologies: HTML, CSS, Javascript, Bootstrap 5, MySQL, Wordpress

- Developed a fully responsive web application using HTML5, CSS3, and JavaScript that works smoothly across all devices.
- Built a reusable page templating structure to ensure consistent layouts and simplify code maintenance.
- Implemented mobile-first responsive designs using Flexbox and Grid to enhance usability and visual consistency.
- Optimized the application for cross-browser compatibility and reliable dynamic content rendering on all screen sizes.

### 4) Alnaz

#### Technologies: HTML, CSS, Javascript, Bootstrap 5, MySQL, WordPress

- Developed a modern and fully responsive front-end for the Alnaz.ae construction website using HTML, CSS, JavaScript, and Bootstrap.
- Designed user-friendly layouts and components to ensure a smooth experience across all devices and browsers.
- Integrated the website with WordPress and MySQL for dynamic content management and efficient data handling.
- Ensured scalable, maintainable structure and optimized performance through clean front-end implementation and CMS integration.
